# **SAWIT TOKEN GLOBAL COMPLETE INVESTMENT GUIDE**

Step-by-step tutorial:  
From Wallet Setup to Cash Out

THE FUTURE OF GLOBAL PALM OIL PLANTATIONS

Welcome to the official  
Sawit Token Global  
Tutorial Series.  
This guide will walk you  
step-by-step through  
the full process — from  
creating a crypto wallet,  
purchasing SAWIT,  
adding liquidity, staking,  
and finally cashing out  
to your local currency.

**Frengki**

Chief Operation Officer & Co-Founder

**⚠ Important: Always double-check wallet addresses and never share your private keys or 12-word secret recovery phrase with anyone.**

# TABLE OF CONTENTS

**1** How to Create a Trust Wallet

**2** Buy BNB on Binance

**3** Send BNB to Trust Wallet

**4** Buy SAWIT Token (Public Sale)

**5** Add Liquidity (BNB + SAWIT)

**6** Stake Liquidity (1-Year Lock)

**7** Sell SAWIT for BNB

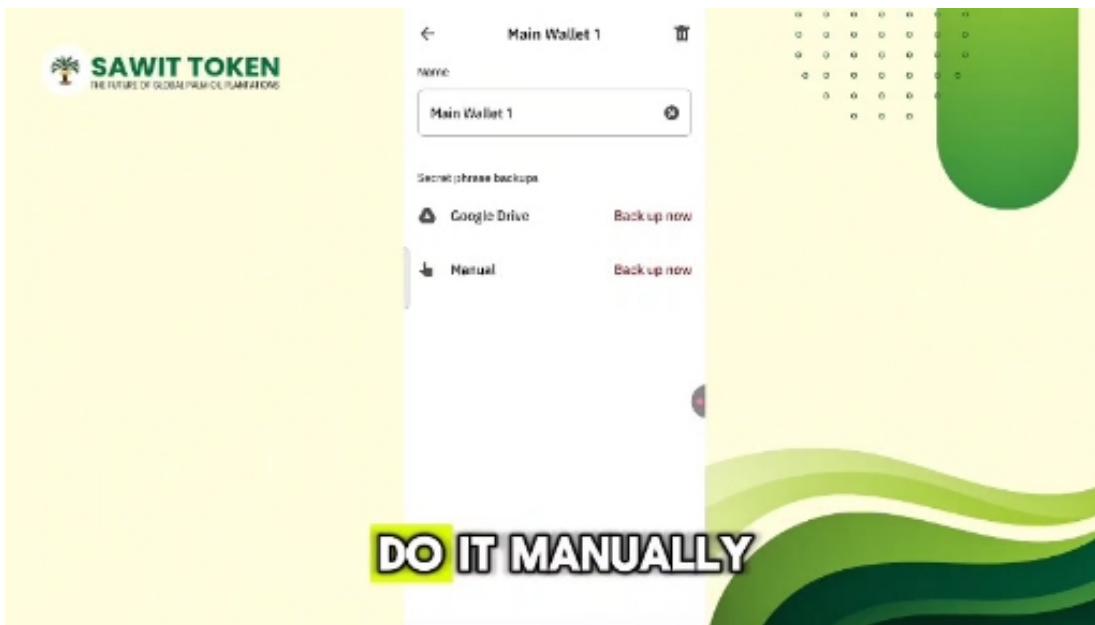

**8** Send BNB to Binance

**9** Cash Out to Local Currency

# TUTORIAL #1: HOW TO CREATE A TRUST WALLET ACCOUNT

Learn how to install Trust Wallet and create a secure wallet from scratch.

[Click here to watch on YouTube](#)

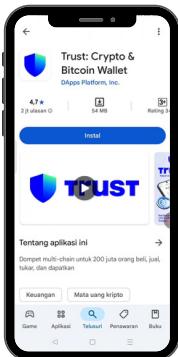

## Key Steps:

Install → Open → Create New Wallet → Set PIN → Back Up Secret Phrase  
→ Confirm Words

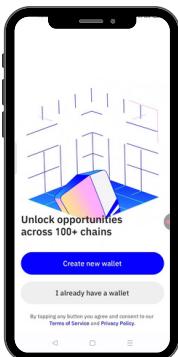

## Best Practice Tips:

- Never take a screenshot of your recovery phrase.
- Do not store it in email, chat apps, or cloud storage.
- Write it down on paper and keep multiple copies in safe, offline locations.
- Treat your recovery phrase like the key to your bank account.

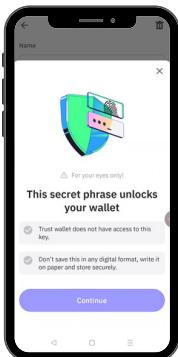

## Step 1: Install the Wallet App

Download the app from the App Store (iOS) or Google Play (Android) and install it on your smartphone.

## Step 2: Create a 6-Digit PIN

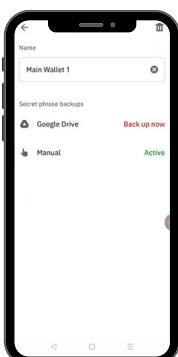

Open the app and set up a secure 6-digit PIN. This PIN will be required every time you open your wallet.

## Step 3: Back Up Your Secret Recovery Phrase

You will be shown a 12-word secret recovery phrase. Write it down on paper and keep it in a safe place.

⚠ Do not share this phrase with anyone. Whoever has it can access your wallet.

## Step 4: Confirm Your Recovery Phrase

Re-enter the 12 words in the correct order to confirm your backup. Once completed, your wallet is now ready to use.

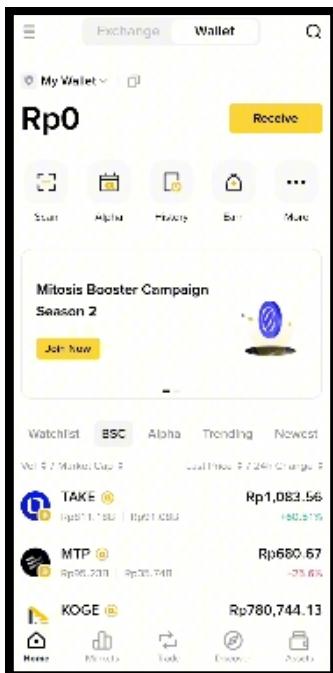

**Important**

Never share your 12-word recovery phrase.

# TUTORIAL #2: BUY BNB ON BINANCE

Learn how to purchase Binance Coin (BNB), the fuel for transactions.

[Click here to watch on YouTube](#)

## Key Steps:

Log In → Wallet → Deposit → Exchange → Buy BNB → Confirm Purchase

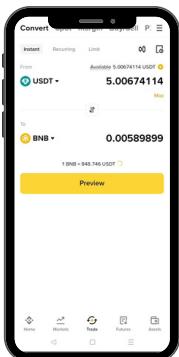

## Best Practice Tips:

- Always enable 2FA (Google Authenticator) before buying.
- Keep a small BNB reserve in your wallet to pay for future transaction fees (gas).
- When using P2P, only trade with verified merchants, follow in-app chat, and never release funds before confirmation.

## Step 1: Open the Binance App

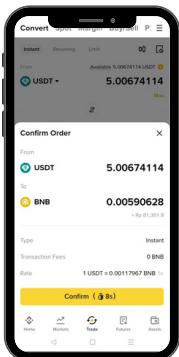

Log in with your verified account (KYC completed). If you don't have one, register and complete verification first.

## Step 2: Search for BNB

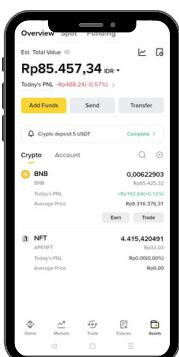

On the bottom menu, tap Trade → choose Convert → choose From: USDT and To: BNB. Enter the amount you want to convert.

⚠ Make sure you are buying BNB on Binance Smart Chain (BEP2O), since only BEP2O BNB can later be transferred to Trust Wallet and used for Sawit Token.

## Step 3: Preview & Confirm Conversion

Tap Preview Conversion to see the rate and fees. If everything looks correct, tap Confirm to complete the purchase.

## Step 4: Check Your Balance

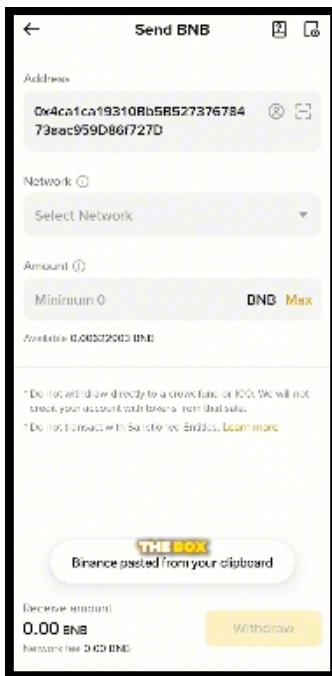

Go to Wallet → Spot

Verify that your BNB has been credited.

⚠ Double-check that it shows under BNB Smart Chain (BEP2O).

# TUTORIAL #3: SEND BNB TO TRUST WALLET

Transfer your BNB safely to your wallet.

[Click here to watch on YouTube](#)

## Key Steps:

Trust Wallet → Copy Address → Binance → Withdraw → Paste Address  
→ Select BEP20 → Enter Amount → Confirm → Verify on Trust Wallet

## Best Practice Tips:

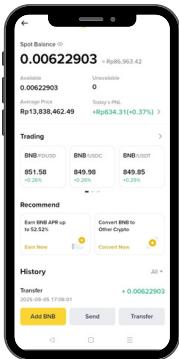

- Always send a small test amount first if it's your first transfer.
- Never send BNB using ERC20 or BEP2 network, it won't show up in Trust Wallet.
- Keep a small amount of BNB in Trust Wallet for gas fees when making transactions.

## Step 1: Open Trust Wallet and Copy BNB (Smart Chain) Address

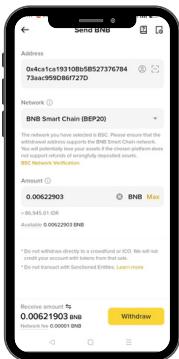

Open Trust Wallet app. Go to BNB (Smart Chain). Tap Receive → copy the wallet address.

⚠️ Don't choose the yellow BNB logo (Beacon Chain), but the black BNB logo (Smart Chain).

## Step 2: Go to Binance and Select Withdraw

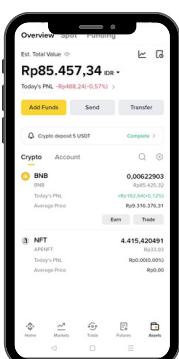

Open Binance app. Go to Wallets → Find BNB → tap Withdraw.

## Step 3: Paste Address and Select Network

Paste your Trust Wallet BNB Smart Chain address. Enter the amount of BNB you want to transfer.

⚠️ Choose BEP20 (BSC) as the network.

## Step 4: Confirm Withdrawal

Review all details:

- Address must match Trust Wallet Smart Chain address.
- Network must be BEP20 (BSC).
- Note the withdrawal fee (usually 0.0005 BNB).

Tap Confirm → Complete security checks (2FA, email/SMS verification).

# TUTORIAL #4: HOW TO BUY SAWIT TOKEN (PUBLIC SALE)

Use your BNB to purchase SAWIT during the public sale.

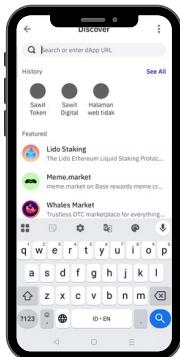

[Click here to watch on YouTube](#)

## Key Steps:

Discover → [sawittoken.io](http://sawittoken.io) → Connect Wallet → Choose Amount → Buy → Approve → Transaction Success → Manage Crypto → Add Custom Token → Paste Contract → Import SAWIT

## 🔒 Best Practice Tips:

- Always double-check the website link: only use [www.sawittoken.io](http://www.sawittoken.io).
- Only use the official contract address above. Do not trust random links from groups or DMs.
- Keep some extra BNB in your wallet for transaction fees (gas).

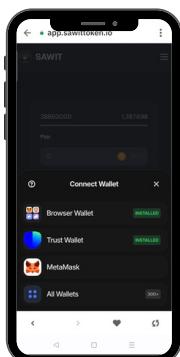

## Step 1: Open Trust Wallet dApp Browser

Go to Discover inside Trust Wallet.

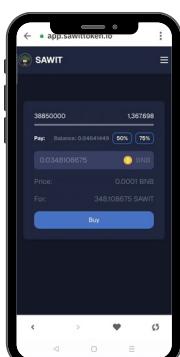

## Step 2: Visit the Official Website

Type [www.sawittoken.io](http://www.sawittoken.io) and open it.

## Step 3: Connect Your Wallet

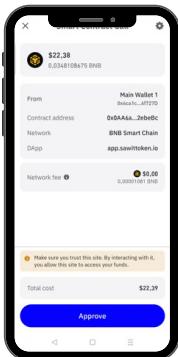

Tap Connect Wallet and choose Trust Wallet.

## Step 4: Enter Purchase Amount

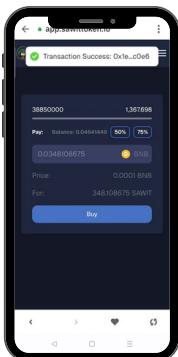

Select how much BNB you want to use (example: 75%).

[www.sawittoken.io](http://www.sawittoken.io)

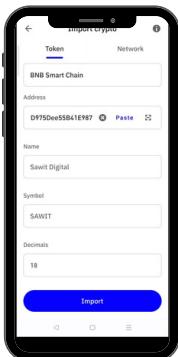

## Step 5: Approve Smart Contract

Trust Wallet will prompt you → tap Approve.

## Step 6: Confirm Transaction

Wait for the blockchain to process. You'll see a Transaction Success message.

## Step 7: Add SAWIT Token to Your Wallet

Go to Manage Crypto → Add Custom Token.

Paste the official contract address:

📌 0x33D7BOE19AE910fc9c1fbb49D975Dee55B41E987

Then tap Import.

## Official Sawit Token Contract Address:

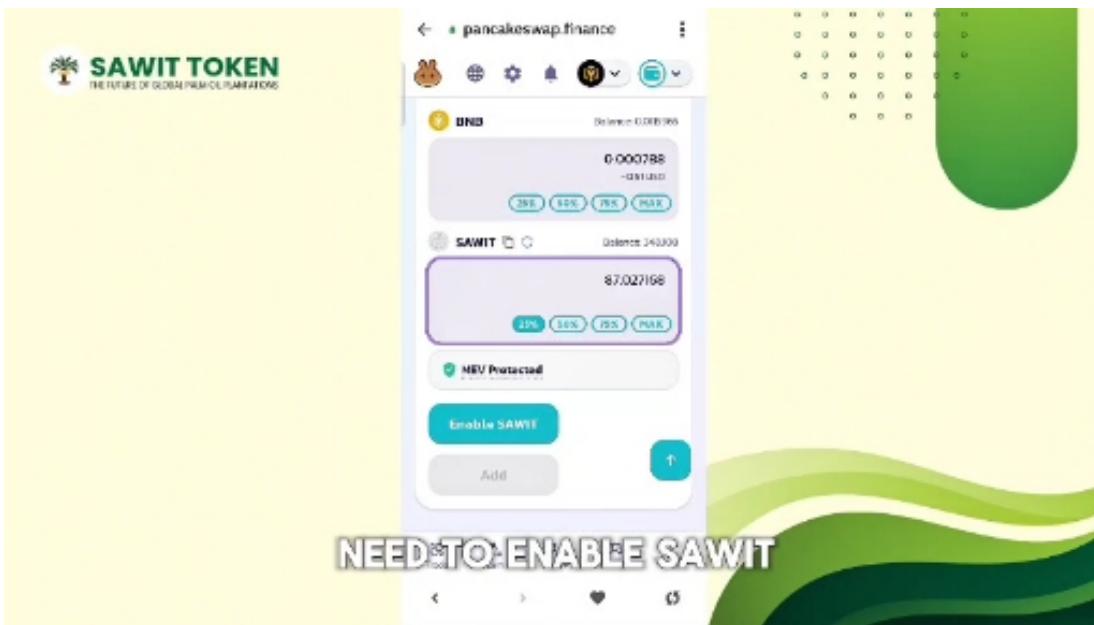

0x33D7BOE19AE910fc9c1fbb49D975Dee55B41E987

[www.sawittoken.io](http://www.sawittoken.io)

# TUTORIAL #5: HOW TO ADD LIQUIDITY (BNB + SAWIT) VIA PANCAKESWAP

Provide liquidity and earn rewards from the Sawit Token ecosystem.

[Click here to watch on YouTube](#)

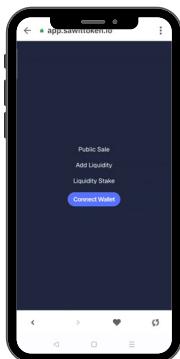

## Key Steps:

Discover → sawittoken.io → Connect → Add Liquidity → Enable SAWIT  
→ Approve → Add → Confirm Supply → Approve → Add Cake-LP

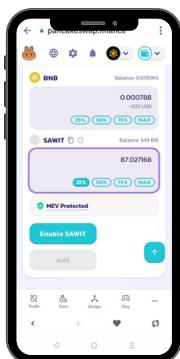

## Best Practice Tips:

- Always leave a small reserve of BNB for gas fees.
- Double-check that the token contract matches the official one.
- LP tokens (Cake-LP) represent your liquidity → do not delete them from your wallet.

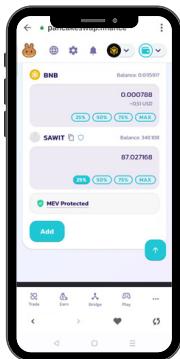

## Step 1: Connect to PancakeSwap

Open Trust Wallet → Discover → sawittoken.io → tap Add Liquidity.

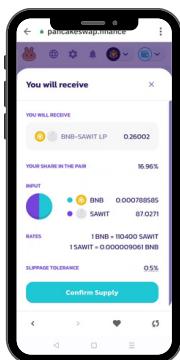

## Step 2: Enable SAWIT

If this is your first time, you must approve SAWIT first. Tap Enable SAWIT → confirm in Trust Wallet.

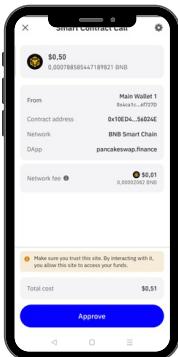

## Step 3: Select Token Pair

Choose BNB + SAWIT as the liquidity pair. Enter the amounts you want to add (example: 0.05 BNB + equivalent SAWIT).

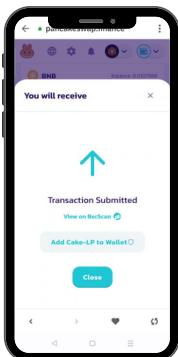

## Step 4: Confirm Supply

Tap Confirm Supply → review details → approve the transaction in Trust Wallet.

## Step 5: Approve Smart Contract

Trust Wallet will ask you to sign the contract → tap Approve.

## Step 6: Add LP Token (Cake-LP)

After success, PancakeSwap will generate Cake-LP tokens.

## Official Sawit Token Contract Address:

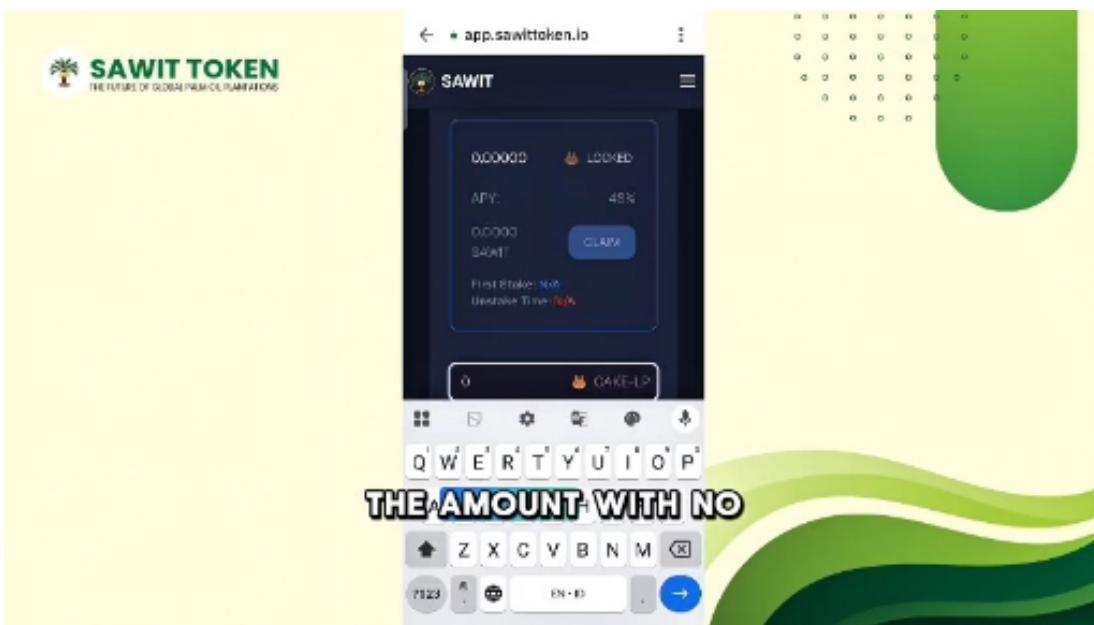

0x33D7BOE19AE910fc9c1fbb49D975Dee55B41E987

[www.sawittoken.io](http://www.sawittoken.io)

# TUTORIAL #6: HOW TO STAKE LIQUIDITY (1-YEAR LOCK)

Stake your Cake-LP tokens to earn monthly rewards in SAWIT.

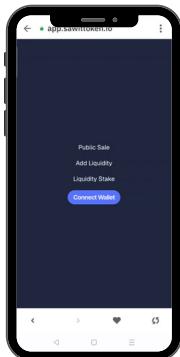

[Click here to watch on YouTube](#)

## Key Steps:

Discover → sawittoken.io → Connect → Liquidity Stake → Approve → Enter Amount → Stake → Confirm → Check Summary

## 🔒 Best Practice Tips:

- Always leave a small BNB balance for gas fees.
- Save the transaction hash (TxID) as proof of staking.
- Monitor your rewards periodically on the dashboard.

## Step 1: Access Liquidity Stake

Open Trust Wallet → Discover → sawittoken.io → tap Liquidity Stake.

## Step 2: Approve First Transaction

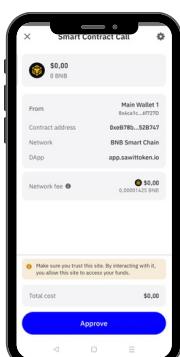

Before staking, tap Approve to allow the smart contract. Confirm in Trust Wallet.

## Step 3: Enter Stake Amount

Input the amount of Cake-LP tokens you want to stake.

👉 You can use up to 4 decimals (e.g., 0.1234).

## Step 4: Stake & Confirm

Tap Stake → approve the smart contract call in Trust Wallet.

Wait for the confirmation message.

## Step 5: Verify Staking Summary

Check your staking dashboard:

- Staked amount (Cake-LP locked)
- APY (annual yield)
- Estimated SAWIT rewards
- Unlock date (1 year from staking time)

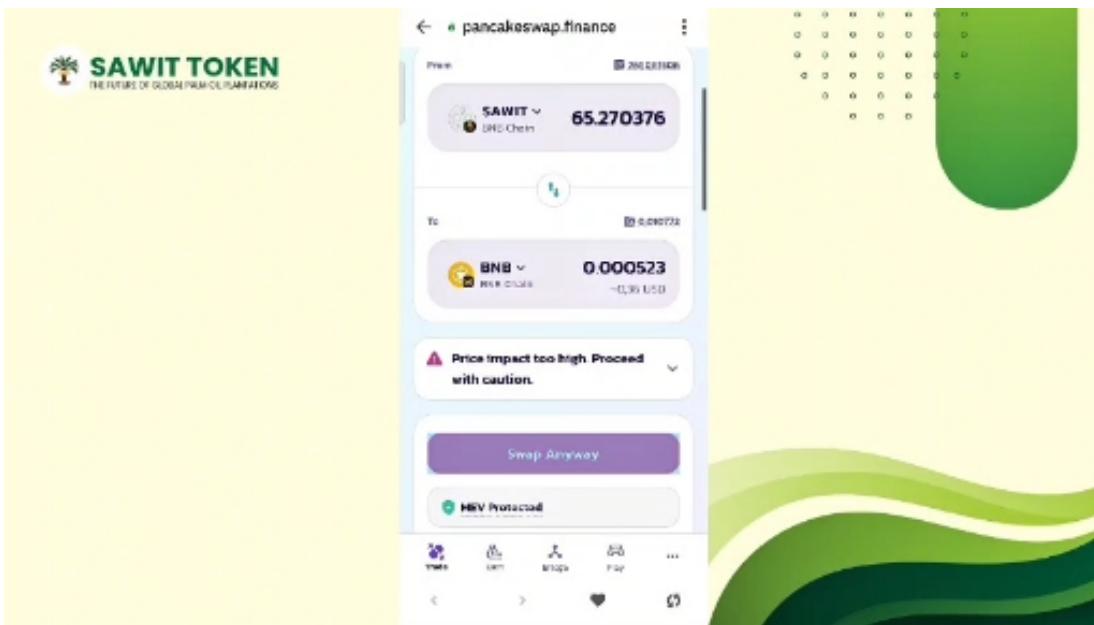

### ⚠ Important Reminder

- Staking is locked for 1 year.
- Do not transfer or move your Cake-LP tokens while staked, or you may lose rewards.

# TUTORIAL #7: HOW TO SELL SAWIT FOR BNB (PANCAKESWAP)

Convert your SAWIT tokens back into BNB via PancakeSwap.

[Click here to watch on YouTube](#)

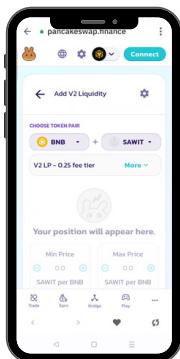

## Key Steps:

Discover → PancakeSwap → Connect Wallet → Trade → Swap → Import SAWIT → Set Amount → Approve → Swap → Confirm

## Best Practice Tips:

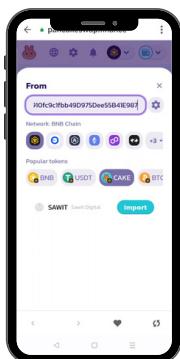

- Avoid swapping large amounts at once to minimize price impact.
- Check liquidity pool depth before swapping.
- Always verify you are on the correct token contract (prevent scam tokens).
- Keep a small BNB reserve for gas fees after swapping.

## Step 1: Open PancakeSwap

Go to Trust Wallet → Discover → PancakeSwap.

Tap Connect Wallet.

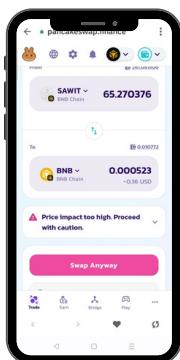

## Step 2: Import SAWIT Token (if not listed)

Tap Select Token → Paste SAWIT contract address → Import.

📌 Contract Address:

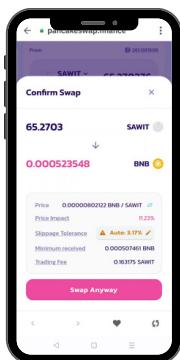

0x33D7BOE19AE910fc9c1fbb49D975Dee55B41E987

## Step 3: Set Amount to Swap

Choose how much SAWIT you want to convert.

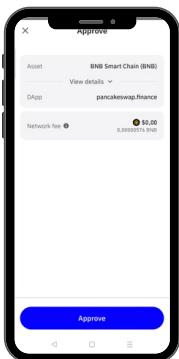

👉 Demo uses 25% of balance.

## Step 4: Review Price Impact

Check slippage, price impact, and warnings.

⚠️ Low liquidity can cause high price impact.

## Step 5: Approve & Swap

First, tap Approve and confirm in Trust Wallet.  
Then tap Swap → Confirm → Sign transaction.

## Step 6: Verify BNB Balance

Go back to Trust Wallet.  
Check that your BNB balance increased.

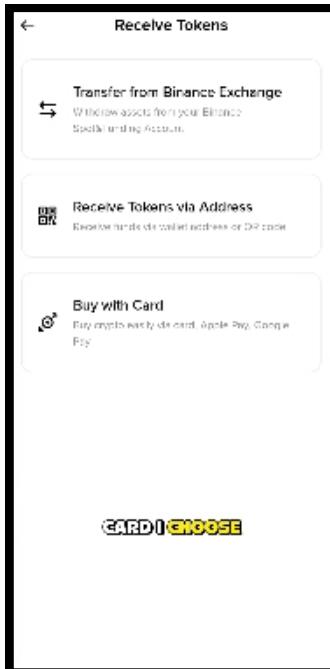

### ⚠ Warning:

Low liquidity can cause high price impact. Always review before confirming swaps.

# TUTORIAL #8: HOW TO SEND BNB FROM TRUST WALLET TO BINANCE

Transfer your BNB safely from Trust Wallet to your Binance account.

[Click here to watch on YouTube](#)

## Key Steps:

Binance → Wallet → BNB → Deposit → Copy BEP20 Address → Trust Wallet → Send → Paste → Amount → Confirm → Check Binance

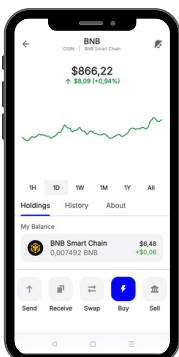

## 🔒 Best Practice Tips:

- Always double-check the deposit address before sending.
- Make sure the network is BEP20 (Smart Chain), not ERC20 or others.
- Start with a small test transaction if this is your first time.
- Remember: once sent, transactions cannot be reversed.

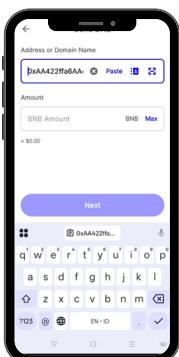

## Step 1: Get Binance Deposit Address

Open Binance → Wallet → BNB → Deposit.  
Select BEP2O (Smart Chain) and copy the deposit address.

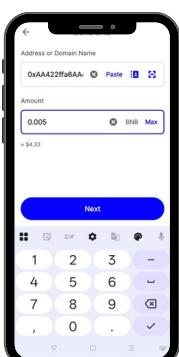

## Step 2: Open Trust Wallet

In Trust Wallet, select BNB Smart Chain (black logo) and tap Send.

## Step 3: Paste Address

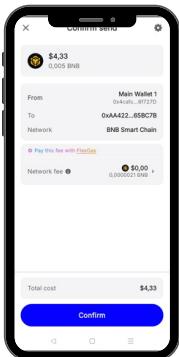

Paste the Binance BEP2O deposit address into the recipient field.

## Step 4: Enter Amount

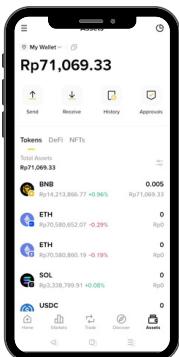

Enter the amount of BNB to send.

⚠ Always leave a small buffer in your Trust Wallet for gas fees.

## Step 5: Confirm Transaction

Tap Continue → Confirm, then enter your passcode.

## Step 6: Verify in Binance

After a short wait, check your Binance wallet.  
Your BNB should now be credited to your account.

# TUTORIAL #9: HOW TO CASH OUT BNB/USDT VIA P2P ON BINANCE

Sell your crypto on Binance P2P and withdraw to local currency.

[Click here to watch on YouTube](#)

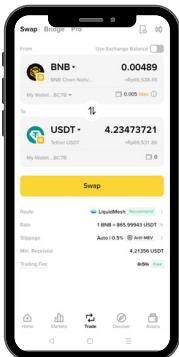

## Key Steps:

Spot Wallet → Transfer → Funding Wallet → Select USDT → P2P Trading  
→ Sell → Pick Buyer → Enter Amount → Select Payment → Place Order  
→ Confirm

## Best Practice Tips:

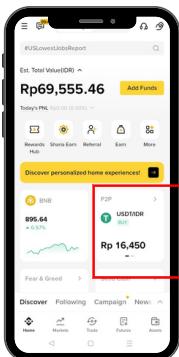

- Always convert BNB to USDT first, since most P2P trades use USDT.
- Choose buyers with high completion rates and verified accounts.
- Double-check the payment received in your bank/e-wallet before releasing crypto.
- Avoid chatting or making deals outside Binance P2P for your safety.
- If there's an issue, use the Appeal button to contact Binance support.

## Step 1: Convert BNB to USDT

Go to Binance → Wallet → BNB → Convert.

Select BNB → USDT, enter the amount, and confirm conversion.

## Step 2: Open P2P Trading

In Binance, go to Trade → P2P.

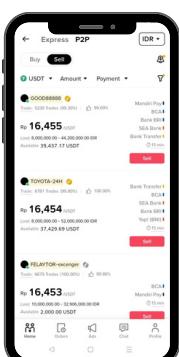

Select Sell tab.

## Step 3: Choose USDT & Currency

Select USDT.

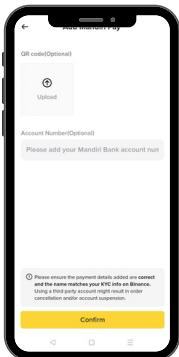

Set fiat currency (e.g., IDR, USD) for cash out.

## Step 4: Select a Buyer

Review buyer's payment methods, completion rate, and limits.

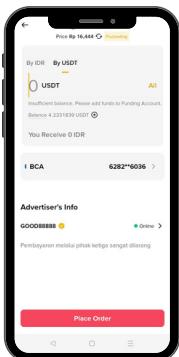

Tap Sell USDT.

## Step 5: Enter Amount

Enter how much USDT you want to sell.

Select your preferred payment method (e.g., bank transfer, e-wallet).

## Step 6: Confirm Sale

Tap Place Order and wait for the buyer to transfer money.

## Step 7: Verify Payment

Check your bank/e-wallet to confirm payment received.

Only after verifying, tap Release USDT.

# Congratulations!

You've completed the full cycle: from setting up Trust Wallet, buying BNB, converting to Sawit Token, staking and earning rewards, all the way back to cashing out. This is the power of Sawit Token – connecting real-world assets to your crypto journey.
